A training day on the documentary language RAMEAU

May 24th, 2022

Following the preparations for the project of the media library creation at the National Institute of Research in Education, Mrs. the Director of the National Institute of Research in Education **Pr. Radia Bernaoui** scheduled a training day in May 24th, 2022 on the use of the documentary language RAMEAU with the presence of the library personnel.

Anceur Ouardia –**an informatics and documentary research specialist**– supervised the training. The program of the training day included the definition of the difference between the documentary language RAMEAU and Dewey decimal classification.
