National Institute for Research on Education

Training on the use of digital databases

In the frame of enriching the documentary fund and accompanying permanent researchers of the National Institute of Research on Education in their projects of research, the director of the Institute, Pr. Radia BERNAOUI has proceeded a subscription of unlimited access to four databases specialized in science of education namely: "Schoopedia", "AskZad Digital Library", "eBooks Education Suscription Collection" and "Education Source".

In this regard, a training of researchers on the use of these databases was organized on Thursday, February 24th, 2022 at the National Institute of Research on Education.

Mr. Mourad GUEBBAS, a trainer in databases described the digital resources in general at the beginning of the training. Then he presented the different the above-mentioned databases précising the way to use and exploit them easily and optimally.

The unlimited access to the data bases will allow providing researchers with an important number of scientific research related to the education field and ensures the fast and secure downloading of these research. It is worth mentioning that these digital resources will be shared among all actors in education.
