Training session

Publishing a scientific article in a renowned journal, considering the impact factors and H-Index of national and international scientific journals

28 November 2023

On November 28, 2023, under the guidance of the Educational Technologies Research Division, a training session was initiated for permanent researchers on the theme « Publishing a scientific article in a renowned journal, considering the impact factors and H-Index of national and international scientific journals » for the benefit of the Institute's permanent researchers.

The training was led by **Dr. Said Chibani**, **Dr. Mouloud Bel Abbas**, and **Dr. Abdelhak Gasm**, permanent researchers at the National Institute of Research in Education. It unfolded as a main session divided into three training segments focusing on theory and practice. The topics covered included the process of publishing a scientific article in an international journal, the role of impact factors in the classification of universities and research centers, and the practical application of the Zotero program.

Following the training sessions held at the INRE media center for permanent researchers, the head of the Educational Technologies Research Division expressed gratitude to the guiding researchers for their contributions to the success of the training.
