**Report on Study day on**  
**Digital tools for the teaching of the Arabic language. Pedagogical**  
**Design, Evaluation and Educational Impact.**  
**December 18, 2023**

On **December 18, 2023**, at the conference hall of the National Institute for Research in Education, under the supervision of the Director of the Institute, **Pr. Radia Bernaoui**, the National Institute for Research in Education organized a study day entitled "Digital tools for the teaching of the Arabic language. Pedagogical Design, Evaluation and Educational Impact". This event was held on the occasion of the International Day of the Arabic Language, with the participation of a group of researchers and teachers from inside and outside the institute, as well as university teachers, inspectors and educational experts to discuss the topic.

Following the national anthem, the Director of the National Institute for Research in Education delivered her welcome address for the study day, stressing the importance of renewing the theoretical and applied fields of language teaching at the digital level, given the importance of technological means in the teaching of the Arabic language.

The activities of the study day were carried out in two sessions: the first session started with a presentation entitled "**Self-learning programs and platforms to assist in the teaching of the Arabic language**", while the rest of the themes of the session revolved around digital resources, pedagogical platforms, and computer applications for the teaching of the Arabic language,. As for the second session, it included interventions on the use of digital language games in the teaching of the Arabic language.

This meeting was an opportunity for constructive exchanges on the various subets discussed during the session throughout the study day. In the same context, speakers and guests expressed their thanks for the choice of this topic. Finally, they presented a number of recommendations related to the topic.

At the end of the event activities, the Director of the Institute thanked all those who contributed to the success of this scientific event.
